

# RAY

## DL19 - LOW GLARE LED RECESSED DOWNLIGHT

### Visual Comfort

Aimed at increasing visual comfort, the Ray downlight from Vision Lighting is specifically designed to reducing eye strain and fatigue.

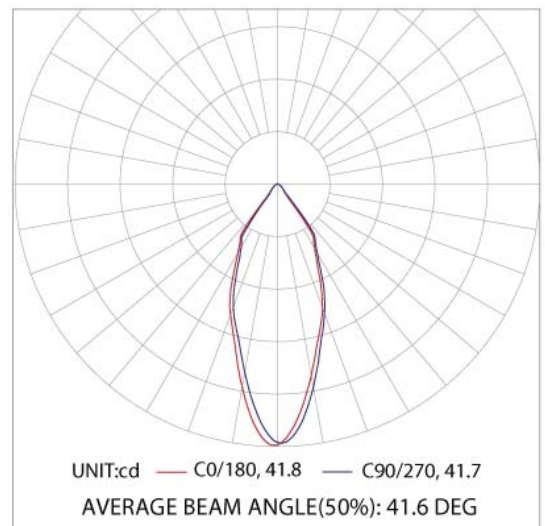

The Ray features a deep set LED chip, specular aluminium reflector on the inside and matte aluminium reflector on the outside, to work in combination and achieve a UGR <19.

For quick and easy installation, the Ray comes complete with a 1.2m flex and plug, and 2 spring clips.
